EDUCATION

09/2022 - 06/2026 **Dalian University of Technology, China**
Bachelor of Mathematics BSc – 3.33 GPA (2:1)

09/2022 - 06/2026 **University of Leicester, UK**
Bachelor of Science in Mathematics (Second Class Honours(Upper Division))

08/2026- 06/2027 **Nanyang Technological University, Singapore**
Master of Science in Analytics MSc

PROFESSIONAL EXPERIENCE

07/2025 – 08/2025 **CITIC Bank Corporation Limited, Harbin Branch, China**
Data Analysis Intern

- Initial focus was on re-evaluating data held for over 30,000 customers, with my work helping to raise completion levels from 82% to 98.5%.
- This work enabled more analyses to be undertaken to identify accounts with financial anomalies and earlier detection of those at risk of defaulting.
- My work fed into the businesses optimisation plan, helping to shape areas such as incentive plans based on customers financial usage.

01/2025 – 02/2025 **YuJian Digital Technology Co., Ltd, China**
Data Modelling Intern

- Participated in the development of a customer analysis model being built as part of Alibaba Huabei's credit scoring system.
- Extended models and re-classifying customer data, helping improve identification of high-risk users by 15% and improve accuracy by over 30%.
- Built a range of unit and integration tests to verify the rationality of the developed models and correctness of data at various stages of the pipeline.

07/2024 – 08/2024 **PetroChina Sales Company, Heilongjiang Branch, China**
Data Analysis, Equipment Information Department

- Worked on the development of the company's Enterprise Resource Planning (ERP) system, undertaking data tasks including processing and cleaning.
- Collaborated with key system users to assist in the collection and compilation of static system data covering 6 major business areas and 63 items.
- Undertook data analyses to identify and clean 46 items of dynamic data, which were reported to users to assist with future reduction and elimination.

EXTRACURRICULAR EXPERIENCE

08/2023– 03/2025 **Department of Higher Education, Ministry of Education, China**
Team Member on Metaverse Research Project

- Research focused on Augmented Reality (AR) and developing real-time communications between metaverse virtual worlds and real-world drones.
- Our novel system integrated and synchronized data from satellite positioning systems and multi-sensors between real and virtual drones to enable a multi-user collaborative interaction environment.

10/2022– 06/2024 **Dalian University of Technology Press Corps, China**
Head of the Imaging Department

- Responsible for capturing pictures of major campus events and meetings.
- Photographs appear in various publications and on promotional material.
